

NOTICE OF PROPOSED TERMINATION AND 30-DAY COMMENT PERIOD APPROVED CORRECTIVE ACTION PLAN UNDERGROUND STORAGE TANKS

The Arizona Department of Environmental Quality (ADEQ) is providing notice in accordance with Arizona Administrative Code (A.A.C.) R18-12-264.01, that a Corrective Action Plan (CAP) Addendum dated February 14, 2001, the CAP Modification dated February 11, 2002, and the letters requesting modification dated February 22, 2006, February 10, 2010, and May 12, 2011 are being considered for termination under A.A.C. R18-12-263.02(J). The CAP contained a proposal to demonstrate proposed corrective actions would be protective of public health, welfare and the environment. The CAP recommended remediation of the contamination using air sparging (AS) and soil vapor extraction (SVE). The air sparging and soil vapor extraction system was started in February 1996, and was shut down in September 2017 due to low inlet concentrations. As site conditions have changed, and the remedial method in the approved CAP may no longer be optimally effective, ADEQ has decided to terminate the CAP.
